

Find out more
about how Orana
can help you.

Providing you with
the care you need for
the life you want.

Accepting in-home care is often the best
and most comfortable option for older
people who need additional help but
would rather live in their own home.

With quality care to maintain your
independence, you can continue to live
in the place you feel most comfortable.

Orana Aged Care at Home is all about
flexibility, quality, reliability and, above
all, care.

Creating Opportunities

Creating Opportunities

We all love our independence.

Most of us want to live independently in our own homes for as long as possible.

However, as we get older, there are certain things that we may no longer be able to do on our own, including many things that are critical to our quality of life.

Managing day-to-day tasks can become increasingly difficult as we age and admitting we need help is not always easy.

Plus, with everyone balancing work and life commitments, it is often difficult for families to juggle the extra time needed to maintain long-term support for ageing parents.

Accessing extra support in the home can ease the burden of running errands and managing daily care needs, allowing more precious family time to enjoy together.

You or a loved one might be finding it difficult to manage day-to-day chores such as personal care, shopping, housework and gardening.

It might be time to consider a Home Care package with Orana to support you to safely stay in the comfort of your own home.

Our range of in-home support includes:

Personal care

Support with daily activities including showering, toileting, dressing and exercises.

Nutrition, diet and meal preparation

Assistance with preparing healthy and nutritious meals, including special diets.

Domestic assistance and laundry

Assistance with general cleaning and chores like washing clothes and ironing.

Transportation and personal assistance

Assistance with shopping, attending regular appointments and social activities.

Light home and garden maintenance

Help with most gardening and maintenance work, including light pruning, raking leaves and replacing light bulbs.

Social support

Support in maintaining an active social life and connections with local community activities.

Nursing at home

Services such as wound care, medication management and palliative care.

Dementia services

Support for people living with dementia.

Respite care

Help with home respite and overnight care.
