

# Support Coordination

## **Orana helps get your NDIS plan up and running, supporting you to find services that fit your needs.**

Orana will help you navigate through the NDIS and connect you with providers who offer the right services to achieve your goals.

We support you to understand your plan and budgets for services you receive.

We can negotiate with service providers on your behalf and help prepare you for your NDIS planning meetings.

You should feel empowered by having the choice of who provides your support and how it is implemented.

**Who is eligible?** Anyone with appropriate NDIS funding.

**Who provides Support Coordination at Orana?** Orana has Developmental Educators who will support you with your NDIS plan.

**When can this start?** As soon as you are available. Our staff can arrange a time that suits you.
